Summary

Enthusiastic and detail-driven Civil Engineering graduate from CMR Institute of Technology with a passion for data analysis and AI. Proactive learner with hands-on experience through self-driven projects and online certifications, showcasing analytical thinking and technical proficiency in SQL and data visualization. Eager to apply data-driven insights and contribute to innovative solutions in a dynamic and growth-focused environment.

Education

CMR Institute of Technology

Dec 2017 – Jun 2022

Bachelor of Engineering in Civil

Bengaluru , Karnataka

Devika P U Science College (Pre University – PCMB), Ranebennur, India

Jun 2016 - Mar 2017

OM National Public School (CBSE), Ranebennur, India

Jun 2014 – Mar 2015

Skills

Languages and Databases: SQL, MS Word, MS Excel, MS PowerPoint

Soft Skills : Communication, Project Management, Leadership

CERTIFICATIONS

- SQL from UDEMY ([LINK](#))
-

Personal Projects

- **Feasibility Study on Low-Cost Bio-Gas Plant**

Undergraduate Project, Visvesvaraya Technological University

June 2021 – Bangalore, India

- Conducted a comprehensive feasibility study for implementing a low-cost bio-gas plant in rural areas.
 - Analyzed construction materials, energy output and cost-efficiency based on local availability and environmental impact.
 - Collaborated with a team to prepare a detailed report and presented findings on sustainable energy solutions.
 - Developed an understanding of data collection, cost analysis and technical documentation as part of the project.
-

Hobbies : Reading, Pencil Drawing, Playing Cricket
